## WORK EXPERIENCE

In a very short time, I was able to transform myself from a trainer to an employee who produces useful work for the company  
I had a task to make a pre-built website to make multi-language and I was able to apply the professional steps to do the task.

**Trainer/Elbruz, Istanbul, Turkey**

04/19 – 07/19

Participate in creating a CRM in the company in different phases, (system analysis, UML design, and back-end programming)

I started the training by working on a project for a car battery warehouse managing system. We managed to make the project with Laravel and Angular JS.

It was a rich experience in this job since I was able to communicate with the customers during the project's time very professionally.

**(WordPress) Developer/ARMATX, Istanbul, Turkey**

03/20 – 06-20

While I was working on a project for the company as a website developer I managed to train two smart students in the same department and allow them to start their journey as website developers using a CMS like WordPress.

I was thrilled to finish a project Called Healthy Souq which is an e-commerce system that serves customers with body care and supplements. The project was developed by me and other talented employees, unfortunately, we couldn't kick off the project in the company mainly because of Covid-19.

**Front-end Developer /ARMATX, Remotely**

06-20 – still working

I participated in the designing phase in one of the most important projects in the company. I was watching the process and participated in a few tasks.

I was able to build a tool to scrape data from the internet using Javascript language with the help of libraries like (puppeteer) and achieve the task of scraping almost 10,000 rows of data

In this position I got to learn a lot of soft and hard skills, practicing new technologies.

**Freelancer as Mobile developer /Pixel Studio AS, Remotely**

freelance

I participated in the building of a real mobile app's screens in the group.

I was able to build an app with React Native and deliver the project on time.

---
